## TELEGRAPHIC.

Foreign news good—peace probable—stocks firm—money easy—Banks expanding—cotton rising—cattails falling—BARNUM's bursted badly—he once threatened to sue us for saying he wasn't the right man for a bank president—uncurrent money unchanged—Land Warrants steady.

## BRECKENRIDGE OIL COMPANY.

Yesterday morning we saw Mr. Cairns, an intelligent and enterprising Scotch gentleman, who is engaged in the establishment of extensive oil mills at Cloverport for the making of oil from the Breckenridge Cannel Coal. Mr. Cairns wishes to obtain from the Legislature a charter for the oil company, and we trust that it will be granted with all convenient despatch, though we are aware that the pressure of business upon the Legislature is very great.

These oil works, if the representations from the best informed sources are correct, are destined to effect highly important results. The corresponding secretary and agent of the American Institute Farmers' Club, on the 5th inst. made a report to the club, in which he said of the Breckenridge Cannel Coal:

"It is known to be capable of yielding benzole (gas), a resinous matter, in the proportion of twenty gallons per ton. This benzole dissolves India rubber and gutta percha. The benzole evaporates and leaves the rubber perfect. Each ton of this coal contains, in addition to the benzole, 28 gallons of illuminating oil, or kerosene (waxy matter), which burns as brightly as camphene, but has no explosive property whatever. It also contains 35 gallons of lubricating oil (paraffine), a fatty matter. Also, twenty-five pounds weight of paraffine wax, equal to the best candle-wax."

We have seen the oil of the Breckenridge coal burning, and know that its light is as beautiful and intense as that of the finest gas in the world. The intention of those getting up the oil works at Cloverport is to make an immense quantity of the oil. The mills will be upon a most extensive scale, and many hands will be employed. It is estimated that the number of hands employed on the oil works and the mines at that point will be at least three thousand—enough to make quite a town of themselves. The oil works will supply a far better article than we now have, and at a cheaper rate. The harpoon will soon go into disuse, and whales will spout and spout unmolested in their blue home. Let our Legislature grant the Oil Company a liberal charter by all means, with the least practicable delay.—*Louisville Journal*, Feb. 14.

The Register of the Land office in Minnesota reports that the whole number of pre-emptions allowed at that office from the date of its establishment, commencing Oct. 9, 1854, to the present time, is 1,066, and all but four of these on twelve fractional townships, containing in round numbers 160,000 acres—that being all the land of which plats had been returned to this office previous to the last month.

We are just advised that a bank called the SOU-  
TH GAN BANK, Milford, N. H. commenced business  
1st January last, of which Thos. Chase, is presi-  
dent, and H. A. Daniels, cashier.

## BEWARE!

We hear of some "TRAVELING" vagabonds about the country—particularly in the Western States—soliciting subscriptions to our REPORTER, representing themselves as our Agents. They are imposters.

## LAND WARRANTS.

For the past month prices have remained about the same, realizing to the seller a fair price, and giving to the purchaser a reasonable margin. We see nothing at the present time to induce us to alter quotations, the supply and the demand being about equal.

We are at this date (Feb. 25) buying and selling as follows:

	Buying.	Selling.
160s.	\$1.05 4/4 acre.	\$1.08 4/4 acre.

## NEBRASKA BANKS.

Charters for five Banks, says the Council Bluffs Chronotype, of Jan. 23), have passed the Nebraska Legislature, and been signed by the Governor. They are to be located at Omaha, Nebraska City, Brownville, Bellevue and Florence. The charters are said to contain quite stringent provisions for the protection of the bill-holders.

## MISCELLANEOUS.

### FINANCIAL AND COMMERCIAL.

WEDNESDAY, February 20, 1856.

No important changes have taken place in financial affairs during the past week. The money market continues to be well supplied, but the demand is active, not only in bank, but outside, calling into active play all the immediate resources of our monied institutions. The active preparations going on for the opening spring's business fluids ample use for all the spare funds offered.

The continued suspension of navigation on our snow and ice bound river and railroads, shunt out the receipt of a large proportion of every description of produce. This, as a natural consequence, must, to a certain extent, affect the money market; for bills, drawn against produce, must be met, whether that gets to market or is in transit—yet, with all this drawback, money is easy—on call at 6@8 per cent, while outside street paper is done at 9@12 per cent.

The Official Weekly Bank averages shows an active and increased movement, as follows, viz.:

Loans and Discounts, increase.....	\$1,057,238
Specie, increase.....	1,445,457
Deposits, increase.....	5,257,792
Circulation, decrease.....	126,661

The gain in specie is larger than anticipated, and places the banks in a strong position.

At Philadelphia the money market continues easy, good paper being readily passed at 8@9 per cent for first class names.

At Boston, money is quoted from 9 to 10 per cent; short first class paper passing readily at the lowest rate named. Negotiations are not large outside of the banks.

The foreign bill market is quite firm, with higher rates. Leading bankers are asking 9@10@11 per cent for sterling, and 5.22@5.18@5.24 for Francs.

The movement in incurrent money is comparatively light; a large proportion of the offerings being of that class of banks that depend more upon the profits of a large circulation than upon loans and discounts.

The operations at the stock board for the last week have been unusually large, and increasing daily, with much firmness in all classes on the list. Outsiders are sending in their orders freely, and so long as this continues, they will appreciate—but when their day comes for selling, look out for breakers. These "stated" periods have always come—they will again. For prices, see table.

### ATLANTA BANK, Georgia.

The Legislature of Georgia, at their last session, appointed a committee to examine into the affairs of the ATLANTA BANK, and have reported—"that the provisions of the charter have been violated; and that, too, knowingly and wilfully"—and conclude by recommending to the Senate the passage of the following resolutions:

1. That his excellency the Governor be requested to issue his proclamation declaring the charter of said Bank forfeited, for a violation of its provisions, as contained in the 14th section of said charter.

2. That the Solicitor General institute such legal proceedings against such bank as may be necessary and proper, for the purpose of having the charter of said bank adjudged and forfeited.

3. That the Solicitor General institute prosecutions against George Smith, as Director, S. C. Higginson, President, and J. R. Valentine, Cashier of said bank, for a violation of the 27th section of the 6th Division of the Penal Code, and that he use such means and take such steps as may be legal and proper to cause such persons to be brought to trial and punishment.

This bank, we are advised, is retiring its circulation as fast as prudence to those interested, will admit.

### BANKING FACILITIES.

The Commercial Register, Sandusky, Ohio, says: The want of increased banking facilities in our State is general, and is universally admitted to be pressing; but we believe it is nowhere more apparent than in our city. The concentration of capital in Banks or Banking companies should keep pace with the wants of the business community; and this would doubtless be the case in Ohio, had not improvident and unequal legislation served to drive it from us.

### NEW JERSEY FREE BANKS.

The following is a list of the circulation of the New Jersey banks organized under the general banking law:

## Explanation of Marks, &amp;c., used in the body of this List.

THE figure on the line with the Bank expresses the Discount on its notes. The descriptions under each Bank are of Counterfeits or Alterations on the Bank. The letter (F.) on the line with the Bank shows it to be a Free Bank with notes secured by a Deposit. The letter (S.) shows it to belong to the mis-named Safety Fund of New York. The letter (D.) means that we consider the Bank DOUTFUL. A T not yet in operation—and a (—) dash, that it is unsaleable. A C that we know too little of the Bank to quote it. For Broken, Closed and Worthless Banks not found here, see Page 30.

## BURGLARS FRUSTRATED!!

Burglars are dangerous.

CHEAPEST AND ONLY RELIABLE  
SECURITY IN THE WORLD.  
Like the Rocks of Gibraltar,  
they are impugnable.

**BANKS and other Institutions** desiring the perfect security of their funds against all grades of depredations, by the tag "Adroit Modern Burglar," an object of importance, will at once supply themselves with this invaluable safeguard.

**BACON'S BURGLAR-PROOF BANK SAFE,**  
Composed, not of cast iron, but of the best quality of English Spring Stool (hardened) and wrought iron, the best and only materials (against the action of Drills, Saws, Jimmies, Jack Screws, Sliding Hummers, &c., &c.) the world has yet produced, secured with heavy wrought iron bolts, (see engraving,) and

**YULES' PATENT IMPROVED DUPLEX BANK LOCK,**  
Which is unparalleled in point of simplicity, strength and perfect protection against picking or explosion by Gun Cotton or Powder.

These Locks and Safes are in use by nearly all the principal Banking Institutions throughout this country, and in no instance has a robbery occurred through them, notwithstanding frequent daring attempts by burglars have been resorted to.

These Safes are made to order of any desired size—the size, however, usually adopted by Banks is four feet high, two feet six inches wide, one foot six inches deep, inside measure—the outside dimensions being about three inches larger, the weight of which is about 2,000 pounds. They are the *plus ultra* of security; in short, they are just the article that no bank should be without.

All orders for the above, also for Iron Vaults, Vault Doors and Frames, made in a superior manner, of any desired dimensions, fitted with locks of various sizes, shall have early attention, if addressed.

W. M. W. BACON, New Haven, Conn.

## IMPORTANT TO BANKS AND BANKERS.

An apparatus for cutting and trimming bank notes with great UNIFORMITY, EXACTNESS and SPEED, has been recently patented by Dr. Frank G. Johnson, and is now offered to Banks at the low price of Twenty-Five Dollars. Any person can operate it with facility, by referring to the accompanying printed instructions. It is entirely simple, and so effective that with its aid one man can cut, trim, count and strain 4,000 thousand sheets of notes in one day, of office hours. The operation of the apparatus and specimens of the work performed may be seen at this office at any time. The Apparatus will be furnished, neatly boxed, and sent forward to any address, promptly, by express or otherwise, upon the receipt of an order accompanied by a draft for Twenty-Five Dollars, payable to my order, upon the presentation of the receipt of the party by whom it is to be forwarded. "Time is money"—say it.
